THE HEALTH CARE JOURNEY – Assessment & Transition to Aged Care

Tristan has been an Exchange Student /RYPEN/RILA recipient and has a strong Rotary background from Louise and John. He is currently Senior Physiotherapist at Rockhampton Hospital. And works in the sub-acute sector. Sub-acute care comes after the acute medical illness has been dealt with and assesses whether patient can go home, or needs to be placed elsewhere to get the proper support . Discussed quality of Life over length of life – requires family discussion. Three documents help “future proof your life”

1: Advanced health directive

2: P.O.A. Power of Attorney

3: Will.

Tristan then answered questions from the floor.

General Business:

3. John Clements has done some research into Caravan Parks for Henley on Todd and recommended one which is 'dog friendly'.
